TECHNICAL SKILLS

React, TypeScript, ES6/ES7, JavaScript, NPM, Yarn, HTML5, CSS3, Styled Components, Flexbox, CSS Grid, Responsive Design, Sizzy, BEM, Bootstrap, Chakra UI, Material UI, Netlify, Render, NodeJS, ExpressJS, MongoDB, Prisma, Mongo Atlas, Git, GitHub, Jira, Figma, UX, Design System Development, Web App Development, Authentication and Authorization, JWT, Google Cloud.

EXPERIENCE

[Projectify](#) | Full Stack Engineer | Project

Sep 2023- March 2024

- Led backend development for Projectify, architecting a Jira-like tool with an API-first, client-agnostic approach.
- Developed a secure authentication and authorization system with BcryptJS for password hashing and JWT for session management, ensuring robust security for critical functions like signup, sign-in, and admin controls.
- Built 30+ RESTful API endpoints with Node.js, Express.js, MongoDB/MongoAtlas, and Joi Validators for comprehensive CRUD operations..
- Created a versatile team and project management system, empowering admins to efficiently manage team members and delegate project assignments.
- Enhanced user engagement and productivity by developing advanced task and story management with document and image attachments. Streamlined data management and storage using Google Cloud Storage and Prisma ORM, boosting platform functionality.
- Employed a strategic architecture design, incorporating routers, middleware, controllers, and services to streamline backend functionality
- Teamed up with a former Amazon Product Designer to craft high-fidelity UX/UX designs, resulting in a modern, clean, type-safe application interface built with TypeScript, React, and Styled Components..
- Implemented Redux-like state management techniques, employing useReducer, Context API, and custom hooks for efficient and scalable application state handling across multiple users.
- Centralized 30+ network requests into a dedicated service layer, optimizing data exchange and interaction with backend services.
- Crafted a comprehensive design system featuring 20+ reusable components (e.g., Tables, Inputs, Buttons, Selects, Menus, Modals) in various sizes, variants, and shapes. Enhanced UI consistency and development efficiency.
- Created interactive Kanban and Table views for story management, utilizing native browser drag-and-drop API for seamless status updates, enhancing project tracking user experience.
- Engineered advanced access control using Private Route logic (React Router) to segregate Admin and Team Member interfaces, ensuring secure and role-appropriate access to application pages.

CENTER FOR MEDICARE AND MEDICAID SERVICES |
Business Analyst and Scrum Master

May 2022 – July 2022
Maryland

- Successfully used Agile Scrum Method for gathering requirements and facilitated user stories workshop. Lead daily Scrum and Sprint Planning meetings to identify the tasks for the sprint .
- Conducted JAD sessions to develop architectural solutions, business requirements, resolve open issues, and manage the required requirements changes. Lead and facilitated cross-functional teams for technical and non-technical business requirements.

UNITED NATIONS DEVELOPMENT PROGRAMME |

Administrative Finance Assistant

Sep 2007- Oct 2011

- Created and performed preparatory work for mandatory and general budget revisions, annual physical inventory, auditing, and assist external evaluators in fulfilling their mission.
- Support the project to perform in full compliance with UNDP financial rules and regulations, maintain proper financial records and reports, and provide audit follow up.
- Implemented for mandatory and general budget revisions, conducted annual physical inventory.

UN Head Quarter |

Administrative LogisticAssistant

March 2014- May 2014

- Conducted supplier interviews and recommended procurement sources to optimize acquisition procedures.
- Organized and facilitated meetings, both in-person and virtual, including agenda preparation, minute-taking, and follow-up coordination.
- Arranged logistics for capacity development activities, workshops, and events, collaborating with facilitators and guests as required.

EDUCATION

TuranTech | Programming School

Apr 2023 - Sep 2023

- Industry-practitioner-led coding bootcamp, leveraging experience from leading tech companies like Ancestry, Proofpoint, and Lending Club.
- Full-stack Software Engineering Bootcamp with over 500 hours of classroom instruction and 500 hours in project-based learning

Y Combinator | Startup School

Feb 2024 - Present

National University of Uzbekistan | BS in Communication

Sep 2001 - July 2005

National University of Uzbekistan | MS in Communication

Sep 2005 - July 2007
